SUMMARY

Motivated and detail-oriented MCA graduate with a solid foundation in front-end web development. Proficient in HTML5, CSS3, JavaScript, Bootstrap, and React.js, with hands-on experience in building responsive, interactive, and user-friendly websites. Seeking an entry-level Frontend Developer position to apply my technical skills and creativity in developing seamless UI/UX experiences while contributing to the growth of an innovative organization.

TECHNICAL SKILLS

Programming Languages: C++, PHP, Core Java, Python

Frontend Technologies: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS

UI/UX and Styling: Responsive Web Design, Flexbox, CSS Grid, Sass, Mobile-First Design, Web Accessibility

Version Control & Tools: Git, GitHub, Visual Studio Code, Chrome DevTools

Package Managers: npm, yarn

API and Integration: RESTful APIs, JSON, Fetch API

Fundamentals: Computer Networking, Operating System, DBMS, DSA, Linux, MongoDB, MySQL, OOPS

PROJECTS

School Management System

Jan 2025 – May 2025

Web Development Project

HTML, CSS, JavaScript, Bootstrap, PHP, MySQL

Developed a responsive and user-friendly web application for managing school operations including enrollment, attendance, and staff management.

Designed and implemented front-end interfaces using HTML, CSS, JavaScript, and Bootstrap.

Built secure backend with PHP and MySQL for authentication and data storage.

Implemented role-based access for admin, teachers, and students.

Online Food Ordering System

Aug 2024 – Dec 2024

Full Stack Project

HTML, CSS, JavaScript, Bootstrap, PHP, MySQL

Developed a full-stack web application for browsing, ordering, and managing food items.

Created responsive front-end for both desktop and mobile.

Implemented backend logic for orders, cart management, and authentication.

Added admin dashboard for menu management and customer feedback.

Color Detection System

Jan 2023 – Jul 2023

Python-Based Application

Python, OpenCV, NumPy

Built a Python application to detect and identify colors in real-time.

Used OpenCV for image processing and RGB extraction.

Matched RGB values with dataset for color labeling.

Created GUI for interactive selection from images or webcam feed.

TRAINING

Infowiz

Jan 2025 – Jun 2025

MERN Stack Training

Chandigarh, India

Completed 6 months of intensive training in MERN stack development.

Worked on real-world projects using MongoDB, Express.js, React.js, and Node.js.

Developed responsive and dynamic web applications with modern UI/UX principles.

Gained hands-on experience in API integration, authentication, and deployment.
